The TDDT Sandbox Update 19 Aug 04

SANDBOX PURPOSE

- Purpose:
  - Get developer feedback on correctness of process business rules and basic functionality
    - Code=UC/FP
    - Feedback on user friendliness issues
  - Increase familiarization of TDDT to reduce train up prior to implementation
  - Developers can review their data in a consolidated db view and plan clean up before final data call
  - Establish the business practices for the SANDBOX and future TDDT versions in terms of coordination, data gathering, data reporting, etc for ongoing TDDT

Current TDDT Timeline

- **Phase 1 Establishing POCs and SMEs**
  (Completed)

- **Phase 2 POCs Sandbox Systems Admin Test and Confirmation**
  (Complete SAs NLT 6 Aug 04, SA do SMEs NLT 20 Aug 04)

- **Phase 3 TDDT User Evaluation**
  (Starts when individual SA Phase 2 is complete, NLT 31 Aug 04)

- **Phase 4 Collection of user feedback on improved TDDT/DB versions for possible CR/ER submission.**

- **Phase 5 Continue full scale effort on final modification upon receipt of FY05 funding**

TDDT SA LIST

- **Dan Smith, AG Ft Jackson**
- **Bill Sessums, AMEDDC&S**
- **Beverly Flavell Armor**
- **Lisa Ellwood, CASOM (ORD/TRANS/QM)**
- **Frank Spang, CHAPLAIN**
- **Tina Weber, MANCEN**
- **Henry Koelzer, FA**
- **James Webb, Intel**
- **Robert “Steve” Shoup, JFK**
- **Gerald Young MP**
- **Phillip Arnold, Signal**
- **Victor Henke, CUBIC**

Phase 2 Details

- TDADD SA list will be notified to log in at: https://sandbox.train.army.mil/portal/applic
- SA permissions will be “set”
- SA to notify SMEs for log in and edit of righ

Check list

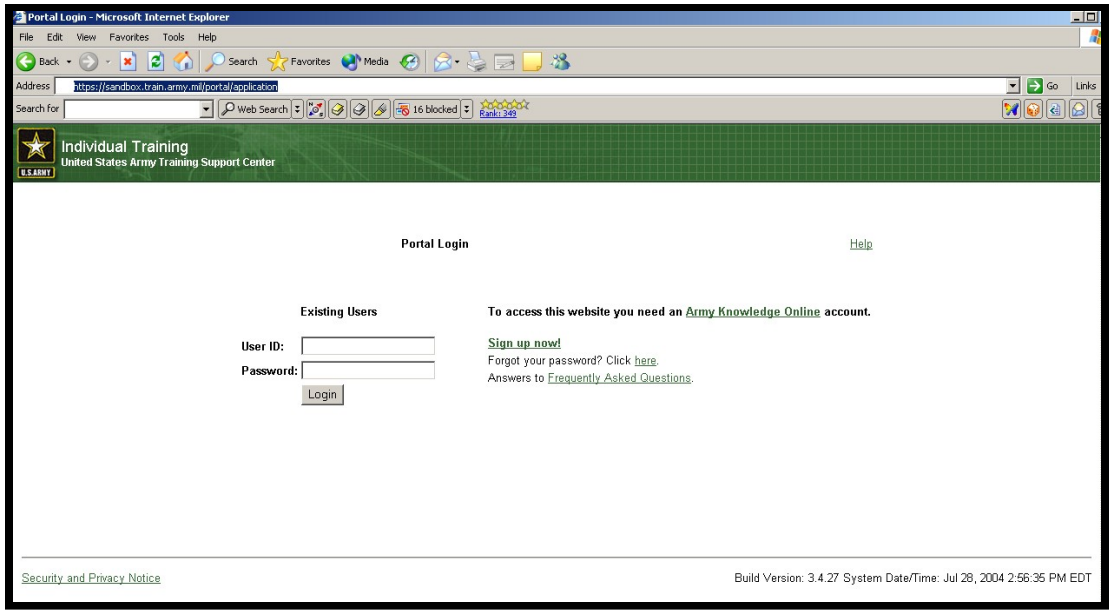
User Group Administration	**90**
ASAT User Administration	**90**
User Group report	**90**
User Report	**90**



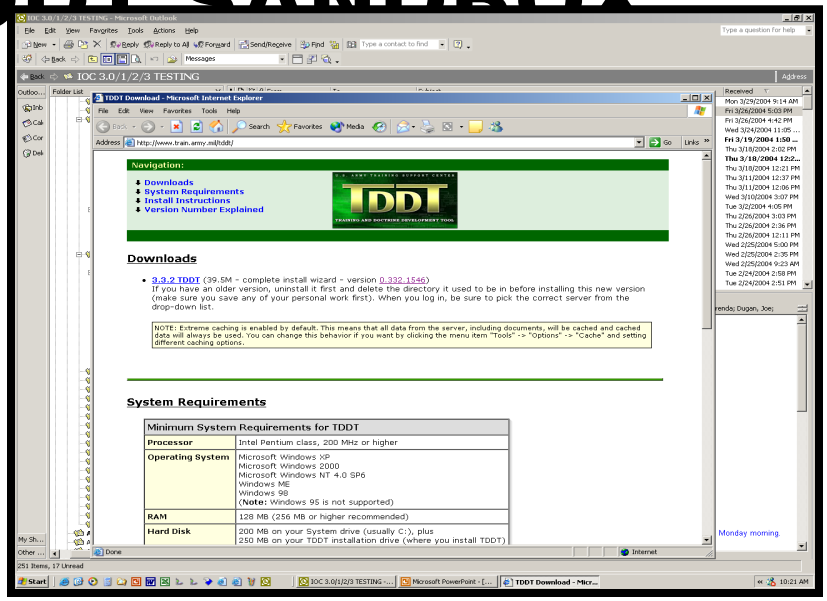
Phase 3 Details (Post SA/SME Set Up)

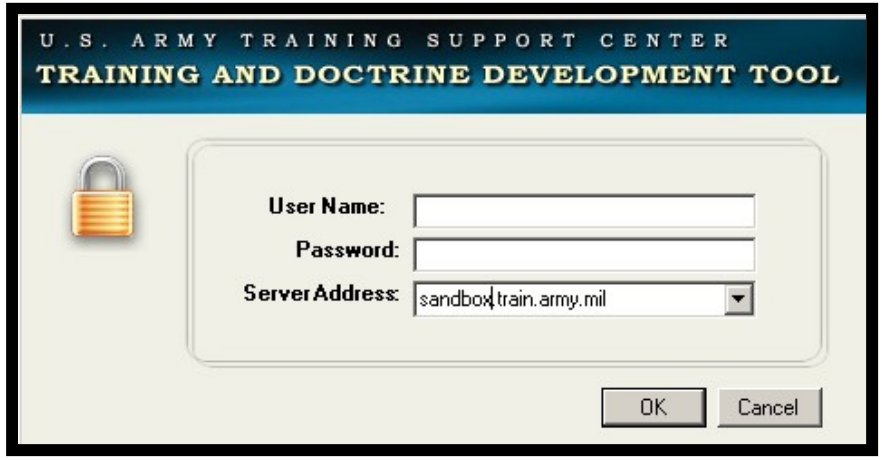
Use of the ATIA TDDT SANDBOX

- Delete any previous version of TDDT
- Go to URL:

www.train.army.mil/tddt

- Install TDDT
- User ID and PW are same as your on AKO (provided you had an AKO in your ASAT user group info)
- Server address is: **sandbox.train.army.mil**





Phase 3 (cont)
INITIAL REPORTABLE EVALUATION AREAS
[Subject to Change]

MTP			
	Create MTP FP.doc	20	No entry for MTP number or title.
	Edit MTP FP.doc	20	Chapter text entries are limited and do not hold format. Cannot enter multimedia. References does not work.
	Copy MTP FP.doc	70	No selection option on what attributes are copied.
	Find MTP FP.doc	90	Need to hide some options and correctly label remaining options.
	Manage MTP FP.doc	20	Security is not applied to the fine grain level.
	Create Unit Task List FP.doc	90	Need corrections to migrated data.
Collective Task			
	Develop Collective Training UC.doc	80	
	Create Collective Task FP.doc (OPFOR?)	90	Some of the related data options are missing, i.e. user/person and reference objects.
	Edit Collective Tasks FP.doc	80	Need refinement on Performance Steps and Measures.
	Find Collective Task FP.doc	90	Need to hide some options and correctly label remaining options.
	Copy Collective Task	80	No selection option on what attributes are copied.
	Manage Collective Task FP.doc	50	Security is not applied to the fine grain level.

Col Reports			
	Collective Task Summary Report	100	
	Collective Synopsis Report (RTF)	100	
	ARTEP/MTP Synopsis Report	0	
	Miscellaneous Collective Report	100	
Drills			
	Create Drill FP.doc	70	Several attributes are missing, i.e. talk, walk, run text.
	Edit Drill FP.doc	70	Migration problem with some data not showing.
	Copy Drill FP.doc	80	No selection option on what attributes are copied.
	Find Drill FP.doc	90	Need to hide some options and correctly label remaining options.
	Manage Drill FP.doc	50	Security is not applied to the fine grain level.
	Build Drill UC.doc	70	
Drill Reports			
	Drill Synopsis Report	100

System Admin Manual and On-Line Help

Version 09
IOC 332

Client-Side Systems Administration Manual: the
and Doctrine Development Tool (TDDT) and th
Administration Portal

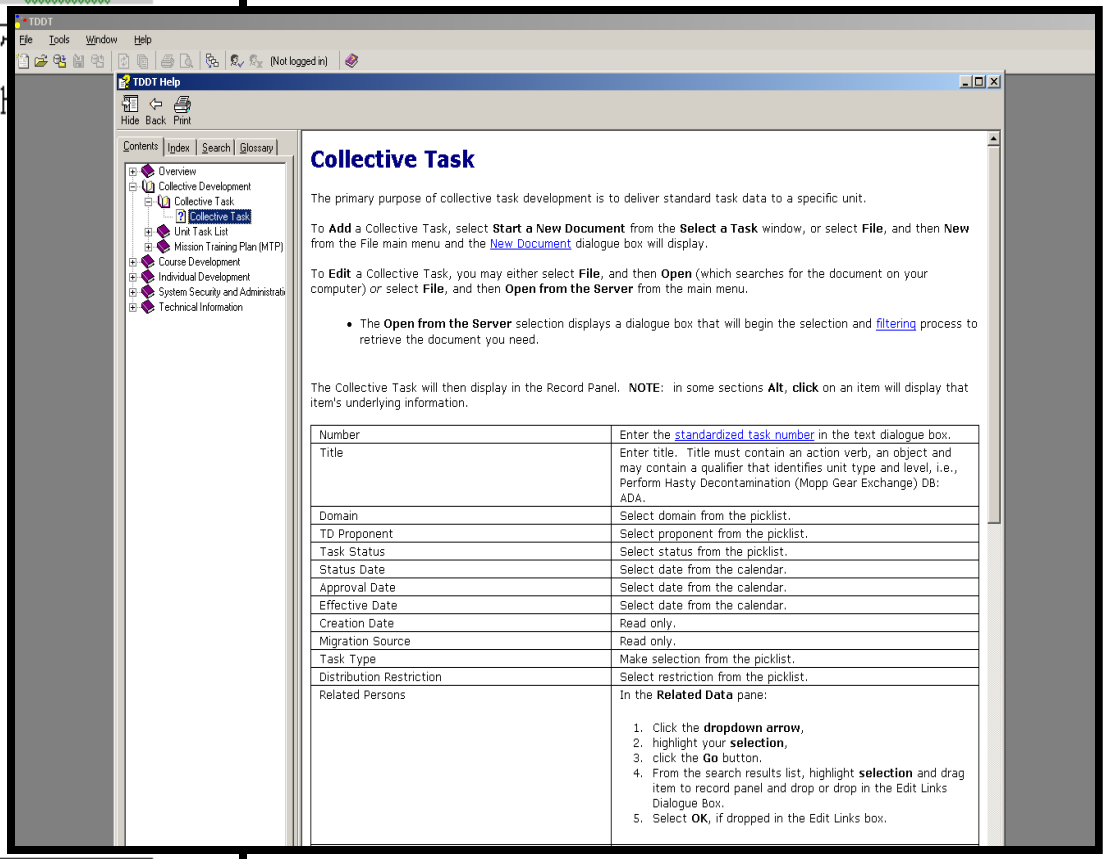
For Army Training Information Architecture

March 10, 2004
Prepared for:
United States Army
Training Support Center
Army Training Information Systems Directorate
Fort Eustis, VA 23604

Submitted by:
SAIC, Advanced Programs and Experimental Systems Office
Advanced Systems Group
1710 SAIC Drive
MS 2-8-1
McLean, VA 22102

Under:
Programming/Technical Assistance Support
Contract Number: DABT60-99-D-0004
Document Number: COM-01-DO0034-D-20031015O1
Delivery Order 34
CDRL Item A0000

Coordinating Draft



Phase 4 Details

- SANDBOX will be second user group beta site store front
  - As new TDDT version is accepted by FCS it will be pushed to users in the SANDBOX
  - User group to continue testing and providing feedback for CR/ER

Phase 4 Details
SANDBOX FEEDBACK

- **Each proponent POC (with RDL upload authority) will consolidate THEIR SME comments, filter out duplicates and non functional comments.**
- **Other proponents (CTD for CATS, Digital, etc) will collaborate with agencies for feedback.**
- **Feedback will be submitted in the provided spread sheet format to Melody Jones [melody.jones@atsc.army.mil] & Elaine Tarr [elaine.tarr@atsc.army.mi] cc: joe.dugan@atsc.army.mil**
- **SMEs will comment only on their specific areas. SME can become familiar with other areas but not to be reported until directed to do so.**
- **No specific direct feedback will be provided to the SME. SME might be called for further details if necessary.**
- **New TDDT version releases will have release notes.**

Get it from http://www.train.army.mil/tddt/

Fixes/enhancements:

- Fixed: If user cancels Login - just cancel that one dialog, not the whole system login
- Fixed: If user couldn't edit, they could still save to database
- Fixed: Users could automatically edit cached documents without checking their permission
- Fixed: Don't let users check in documents they haven't checked out first
- Fixed: Save to database asks twice if user wants to check out
- Fixed: ColTask error when user tries to copy a task, modify it, and save it to the dB
- Fixed: Better top Menu handling
- Fixed: Special characters < > etc... Are being turned into < and >, which screws up the XML
- Fixed: Bad XML when saving a document that contains nested tables (e.g. Access Group View)
- Added: A toolbar
- Added: Ask to check out cached documents to make them editable or not
- Added: Automatically check in on save to database
- Added: Ability to refresh an open document
- Added: Logout option to menu and toolbar
- Added: Icons in menu

SANDBOX REPORT FORMAT

(DO NOT CHANGE OR ADD FEATURES/OBJECTS)

PROPONENT: *CAC-T/CTD-Digital* TDDT FEEDBACK REPORT FOR WEEK *17-21 May 04* TDDT Version # v3.4.1668														
PROPONENT POC (Name, email, phone) *Sarah Smith, sara.smith@us.army.mil, DSN 123-9873*														
Subject Areas: Choose (X)	System Admin	Collective	Individual	Lessons	Course/POI	CATS	Other (state)	Server Version and DTG	Document Type/Screen	Document Title/Screen (e.g. actual task #/Migration Source or if new document)	Document element (e.g. "Task Step")	Define the functional error	Detail the steps prior error discovery	SME Name/Phone/Email
EXAMPLE			*X*					V3.4.27 Jul 28 1456hrs	*Individual Task*	*#123-345-5634 /ASAT 987*	*Task Step*	*Step Edit did not save*	*Opened task from the db, re-wrote task step #3, save to db, recalled task, step change did not save.*	*Joe Joes/DSN 123-4567/Joe.Dugan@us.army.mil*
